Feb. 12, 2013

Brattleboro Tree Advisory Com.

The meeting was called to order at 7:00 PM in the Hannah Cosman Rm.

Members present: Helene Henry, Dan Adams (Tree warden), Anne Brinton, Robert Clements, Martin Webster. Absent: Michael Hutchison & Visitors: Roz Blake & Bob Everingham.

Agenda
1. Dan's Report
2. Tree Planting & Maintainance
3. Drop in Center planting
4. Trails
5. Tree planting at Clark / Canal
6. Waste area planting.

Dan's Report - Most of work focused on the Hemlock Wooly Adelgid infestation. The Emerald Ash Borer is of ongoing concern & could be here at any time. Dan has been in communication with C. Cusack to discuss treatment and/or having an Antioch student collect data on the invasives. We are hoping the State will structure the information for the public & take the lead. Perhaps having an Antioch student collect data on the invasives. Hoping the state

will structure information for the public, perhaps in workshops, publications or meeting with citizens. That the program would be state wide. Also may be helpful to have professionals informed about treatments. Dan's report is on file.

2. Tree Planting - Roy will explore the Clark Canal planting. We hope to do some planting this spring in the town parks. Dan will connect with Gary King of Public Works - invite him to our meeting & see how we can work together.

3. Trails Report. Robert reports that much work has already been done, most trails are in good condition. Some stabilizing has been done & will continue into spring.

4. Drop in Center planting - Helene spoke with Arlene Distler. She did not have any information about tree - Helene will give her a call before our next meeting

Tryp Crew Meeting March 12
7:00

Agenda:

1. Dan's Report
