

Are you interested in the safety of bicyclists and pedestrians on Brattleboro's roads?
Are you interested in road projects in Brattleboro that relate to bicyclists and pedestrians?

If so, please plan to come to ***Brattleboro: Safer Streets Forum*** on **Thursday, May 5th at the River Garden from 5-7:30.**

The goals of the forum are three-fold:

1. The town will inform residents of ongoing work and projects that relate to bike/ped infrastructure.
2. Local volunteer groups will inform residents of their work on projects that relate to bike/ped safety.
3. Town residents have a chance to bring their concerns directly to the various groups who work on bike/ped issues.

Light supper will be provided.

This forum is being hosted by the Brattleboro Safe Streets Project, a group that works to increase road safety for bicyclists and pedestrians through education & outreach, and is being sponsored by AARP. For more information, send an email to acharkes@myfairpoint.net or kathleen.white@vermont.gov
