

Tree Warden Notes

March 12, 2014 to May 13, 2014

I have continued in forwarding any publications and notifications that I have received from the state of Vermont's forestry department to the Brattleboro Tree Board as well as any other pertinent information that I receive by email. Not much else has happened in the way of Tree Warden business in the last 2 months.

I emailed the Brattleboro Parks & Recreation Department a few times this past winter asking if they would like some trees planted anywhere on Parks & Rec properties. Paul Ethier emailed me back on April 10th to tell me that Parks & Rec would like the Tree Boards involvement in choosing and planting trees at the new West River Park. Paul sent me a landscape plan of the park and I will make that available to the Tree Board at the May 13th meeting.

Dan Adams
Consultant Forester
Brattleboro Town Tree Warden
