Why are you interested in this position and what particular skills would you bring to the organization?

My time with the P.C. thus far has been one of constant interest and enthusiasm and growing competence. I want to continue in this role in order to be of increasing service to the town and its residents, as well as to build upon my own interest in the position and subject matter. Other relevant skills: -my intention to live here

for the rest of my life adds incentive to strive for a thriving Brattleboro; -my training and everlasting proclivity for thoroughness, curiosity, and truth; -I balance listening / respecting others proposals with the regard I hold for my own ideas.

Have you ever attended a meeting of this committee?

Yes

No

What is your vision of the Town of Brattleboro?

My vision for Brattleboro is one of growth. Here, I do not necessarily/solely mean growth in population, or growth in economic wealth, though surely Brattleboro has been struggling with these factors and could benefit from any uptick. What I'd like to bring focus to is growth in such valuable realms as vitality, equity, sustainability, diversity, and creative innovation; these should be pursued for their own sake, and if we can grow Brattleboro in these regards and others that make it a more desirable place to live, then the conventional metrics of population and economic growth will follow.
