Job Description

Title: Summer Stormwater Engineering Internship *(2 positions available)*

Department: Department of Public Works

Nature of work:
The Summer Stormwater Engineering Intern position would involve aiding the Town of Brattleboro in complying with the Municipal Roads General Permit (MRGP) via inspecting and documenting all hydrologically connected road segments and outfalls for compliance.

This internship involves repetitive data collection in the field but will also require individual analysis and use of engineering skills to solve problems. The intern would also work with experienced personnel from both Brattleboro Public Works and Stevens & Associates. This internship is a great opportunity to learn more about both the public and private sectors of civil engineering.

Work Schedule: Expected time commitment is June through mid-August, however, start and end dates are flexible. *Management determines number and time of shifts, hours of work, days of week and number of hours and days in work week. $15 per hour for up to 40 hours per week*, not including any additional benefits. This is a temporary assignment for employment and continued employment is not guaranteed beyond the season.

Supervision Received: DPW Supervisor(s)
Supervision Exercised: None.

Essential Responsibilities:
- Intern responsibilities would include:
  - Field checking hydrologically connected road segments and determining whether they are compliant with the MRGP criteria.
  - Field checking hydrologically connected outfalls and determining the same
  - Taking photos and documenting data via the State online survey tool
  - Assisting DPW staff with other projects as needed.
Non-Essential Duties and Tasks: The responsibilities and duties listed above are examples of the various types of work performed. The omission of specific duties does not exclude them from the position if the work is similar, related, or a logical assignment to the position.

Competencies Needed: Students entering their sophomore, junior, or senior year of a 2-year or 4-year civil/environmental engineering or environmental studies program are qualified for this internship.

Work Environment: Indoor & Outdoor work environments

Union Status: Non-Union; This is a temporary position; continued employment is not guaranteed.

The Town of Brattleboro is committed to diversity, equity, and inclusion. We strongly encourage people of color, people with disabilities, LGBTQ applicants, and people from other underrepresented groups to apply recognizing and respecting that diverse perspectives and experiences are valuable to our team and essential to our public service.
